1 Introduction

This document explains how to provide informational screens in between questions using test sections.

2 Steps

2.1 Creating a test with sections

Hover over the "Tests" in the main menu and select "New test".

Enter the basic test information in the first step of the test creation process and check the "**Test with** sections" option. Then click the "**Next**" button.

	My assignments Users - Tests - Surveys - Training courses Reporting - System -	🔋 i 🖓 🖳 🚱 י					
	1 2 3 4 5 6 7 Test information Settings Certificate Sections Grading Review Save test						
Test sections	Create test wizard Next						
No sections created yet	Test information ?						
	Description: This test aims to demonstrate how to create a test with sections. Label: ①						
	Acknowledgment: I understand and agree with the instructions and rules of this assignment Test with sections Figure states						
	Test instructions option: All candidates will have to read the instructions before starting the test (this setting is optional). <u>Read more</u>	<u>u</u>					
	Copy previously created instructions: Select one						
	B I U ⊖ ≜ ⊠ x₂ x² H₁ H₂ 99 Φ ⊟ ≡ ⋿ ⊨ ¶ ≡ � I₂ Φ						
	1 2						
	Create new Import from library						

Note: This way, you will be able to group the questions into sections.

On the fourth step of the test creation process, you will be navigated to the section creation wizard. Click on the "**Add section**" button.

	Start the witzard to create a section and add questions to it. You can create an unlimited number of sections.	

Define "**Section introduction**" text that will appear prior to that section and represent an information screen for all of the questions included in that section.
