2 Company Background

Malloc Inc. is a software development company incorporated in 1994 in Toronto, Canada. It is the manufacturer of several commercial software and provider of information technology services for many Fortune 500 companies.

Malloc Inc. currently serves several high-profile customers all around the world, including Canada, the United States, Europe, Asia, and Australia.

YouTestMe is a registered operational name of Malloc Inc. and represents the brand for the knowledge testing and learning management system line of products.

3 Our Value Proposition

YouTestMe is a company with more than 30 years of experience building and customizing enterprise systems for various Fortune 500 companies. Our team specializes in software development and delivering secure, complete IT solutions.

We continuously develop the YouTestMe platform's capabilities through feedback from our customers and by creating new trends for the e-learning industry in our R&D department. Our mission is to revolutionize the field of knowledge testing and examination.

YouTestMe presents a superior IT Solution for knowledge examination. Our technology, delivery method, flexibility, and security procedures are what sets us apart. Transferring from paper-based testing to full online examination is the way of the future, and all organizations can benefit from it, no matter their industry.

Our technology allows candidates to save time by taking tests remotely, and organizations and instructors save time and money. YouTestMe also has a network of proctors available for online remote proctoring 24/7 and integrations with powerful proctoring tools based on artificial intelligence to ensure test integrity and prevent any cheating. The platform is fully automated for test creation, processing payments, organizing training and testing sessions, and sending reports.

Various organizations from Government, military, and public sectors have put their faith in YouTestMe and now use our solution on their premises for compliance training and testing for Government employees. Our system has passed the US Government's security checks. It can be hosted on their premises and is compliant with accessibility standards like Section 508 of the Rehabilitation Act and with data privacy standards like the GDPR.

Our clients also come from the corporate sector. YouTestMe ensures more effective HR by organizing training courses with engaging content for onboarding and employee certification. We provide seamless data syncing with the existing enterprise environment and an opportunity for complete branding.

YouTestMe supports the education sector since paper-based solutions are costly and not environmental friendly. Our solution is designed to meet the needs of educational institutions. Organize training and testing for candidates more effectively and in a highly secure process using automated or live proctoring.

A secure examination is guaranteed with us. With more than 300,000 users, 1,500,000 tests delivered, and 130 languages available, YouTestMe is the best and most secure choice for your training, examination, and certification.
