

YouTestMe Monthly

January 2021

YouTestMe is specialized in delivering high-stakes exams securely to your candidates' homes or offices. To meet every budget, we offer professional AI proctoring solutions and cost-effective alternatives that use conference tools for online proctoring.

Real-time Test Monitoring

The Monitoring Tab of YouTestMe GetCertified allows you to control test dynamics, pause the test attempt or prohibit the candidates from taking the exam, and track candidates' progress with a detailed preview of:

- Question and section status
- Time spent on answering each question and section
- Score by section
- Action logs

Live Proctoring Using Conference Tools

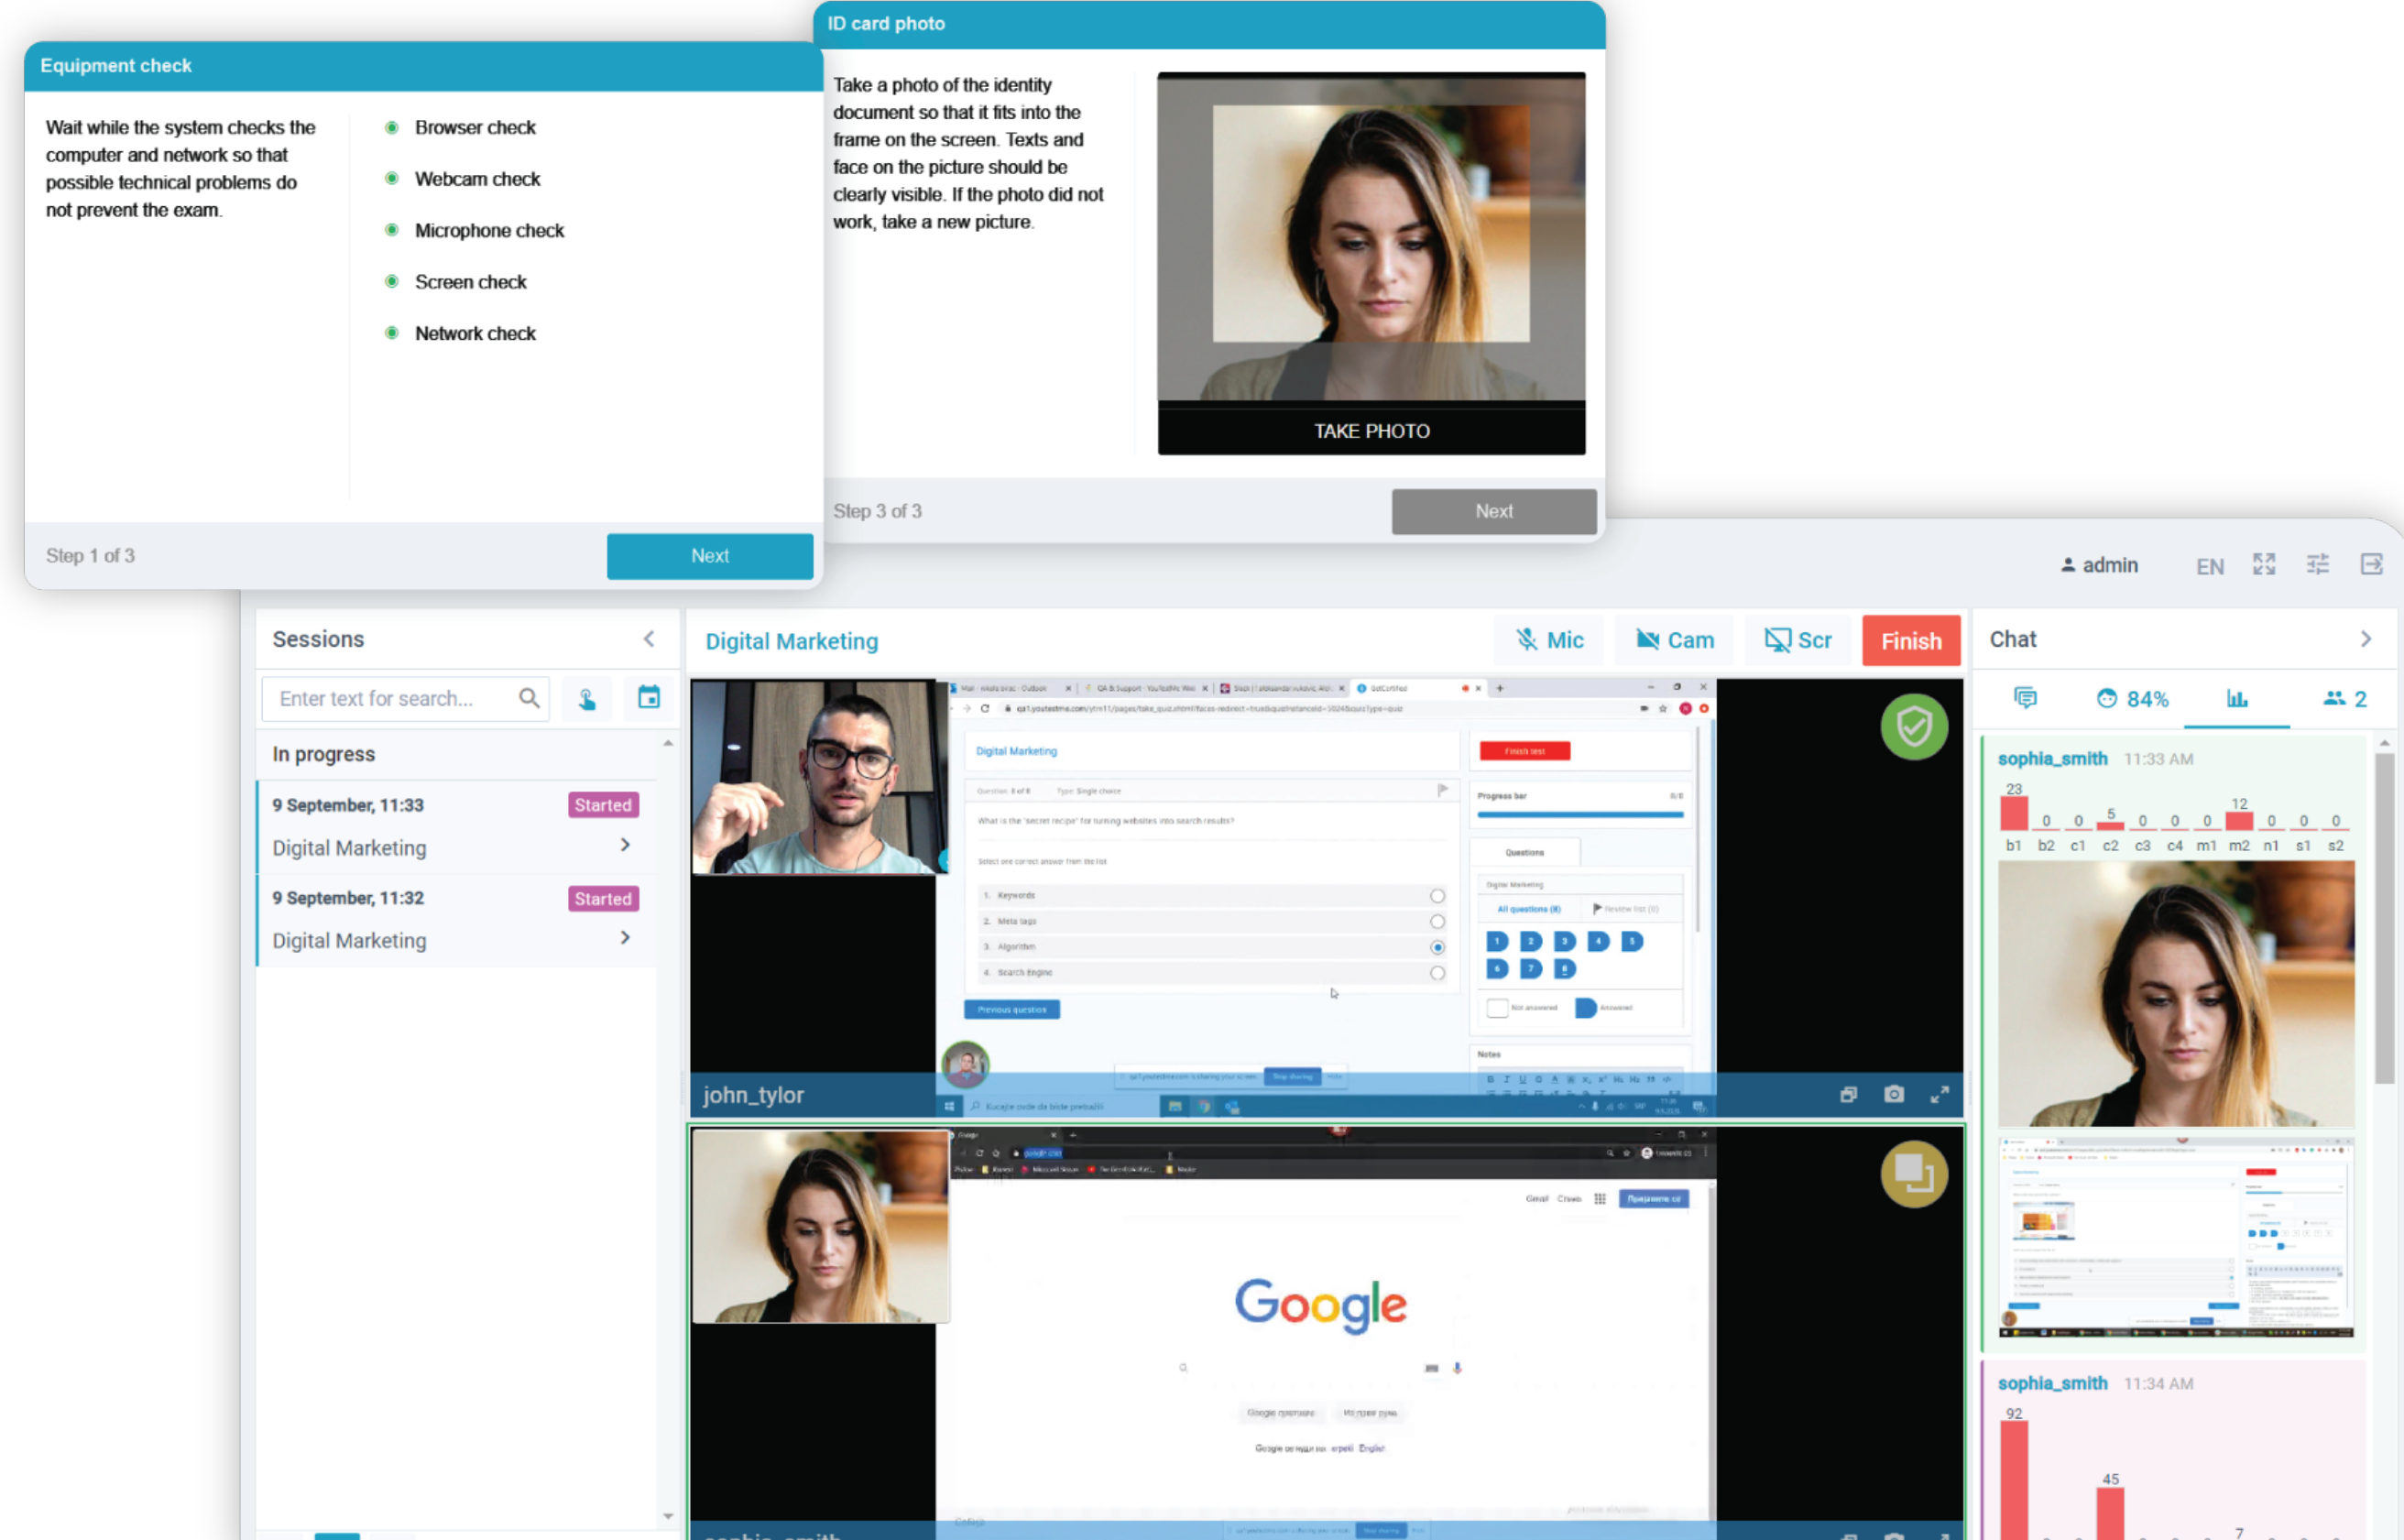

YouTestMe GetCertified, through its integration with Webex, Skype, Google Meet, Zoom, or any other conference tool, provides an affordable alternative to the professional proctoring services, enabling the remote real-time monitoring of the examination processes.

- A proctor supervises candidates during a live meeting using a webcam and microphone.
- Lockdown browser creates a secure exam environment by disabling access to any other screen except the test-taking page and preventing candidates from copying, cutting, and pasting anything from the screen.
- The monitoring dashboard allows the proctor to flag moments when any kind of suspicious behavior occurs and consider them before submitting the proctoring report.

Online Proctoring Using Artificial Intelligence

Automated proctoring, the most advanced proctoring service, ensures the maximum integrity and security of exam experience. The system automatically monitors the test attempt using 8 behavioral trackers and records the entire process, marking the moments of suspicious behaviors. Once the exam is finished, the system generates a credibility report and stores the exam footage for the optional subsequent human validation and review.

- Audio-video and screen sharing
- Advanced ID verification
- Face-matching technology
- Advanced video and audio analytics (suspicious objects in video and background voice activities)
- Video archiving
- Credibility report
