LTI + YouTestMe GetCertified

Secure Integration with Your LMS
Endless Possibilities for Your eLearning Ecosystem

YouTestMe GetCertified now supports the LTI standard, allowing you to connect [YouTestMe GetCertified](#) easily with your LMS (e.g., [Moodle](#), [Blackboard](#)) in a secure way.

First, what is LTI?

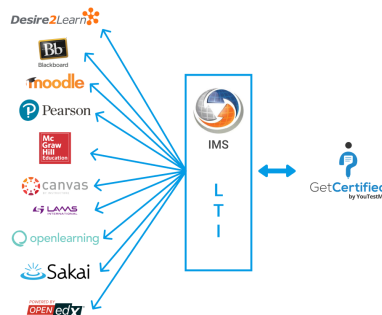

The IMS Learning Tools Interoperability (LTI) standard prescribes a way to efficiently connect learning applications and tools with platforms like learning management systems (LMS) or portals located on your premises or in the cloud, in a secure, standard manner and without the need for expensive custom programming.

Second, what does that mean for YouTestMe GetCertified?

If you are using YouTestMe GetCertified for online examination, all the data can be continuously and securely united with your LMS with a few clicks.

Why this creates a smooth, integrated, and seamless experience for both students and instructors?

- Automated exchange of assignments and grade data between YouTestMe GetCertified and your LMS gradebook
- Elimination of the need for your students to have multiple sets of login credentials for different websites
- Seamless transition from LMS to online examination platform, using deep links
