

## Online Examination Solution chosen by U.S. Government Institutions

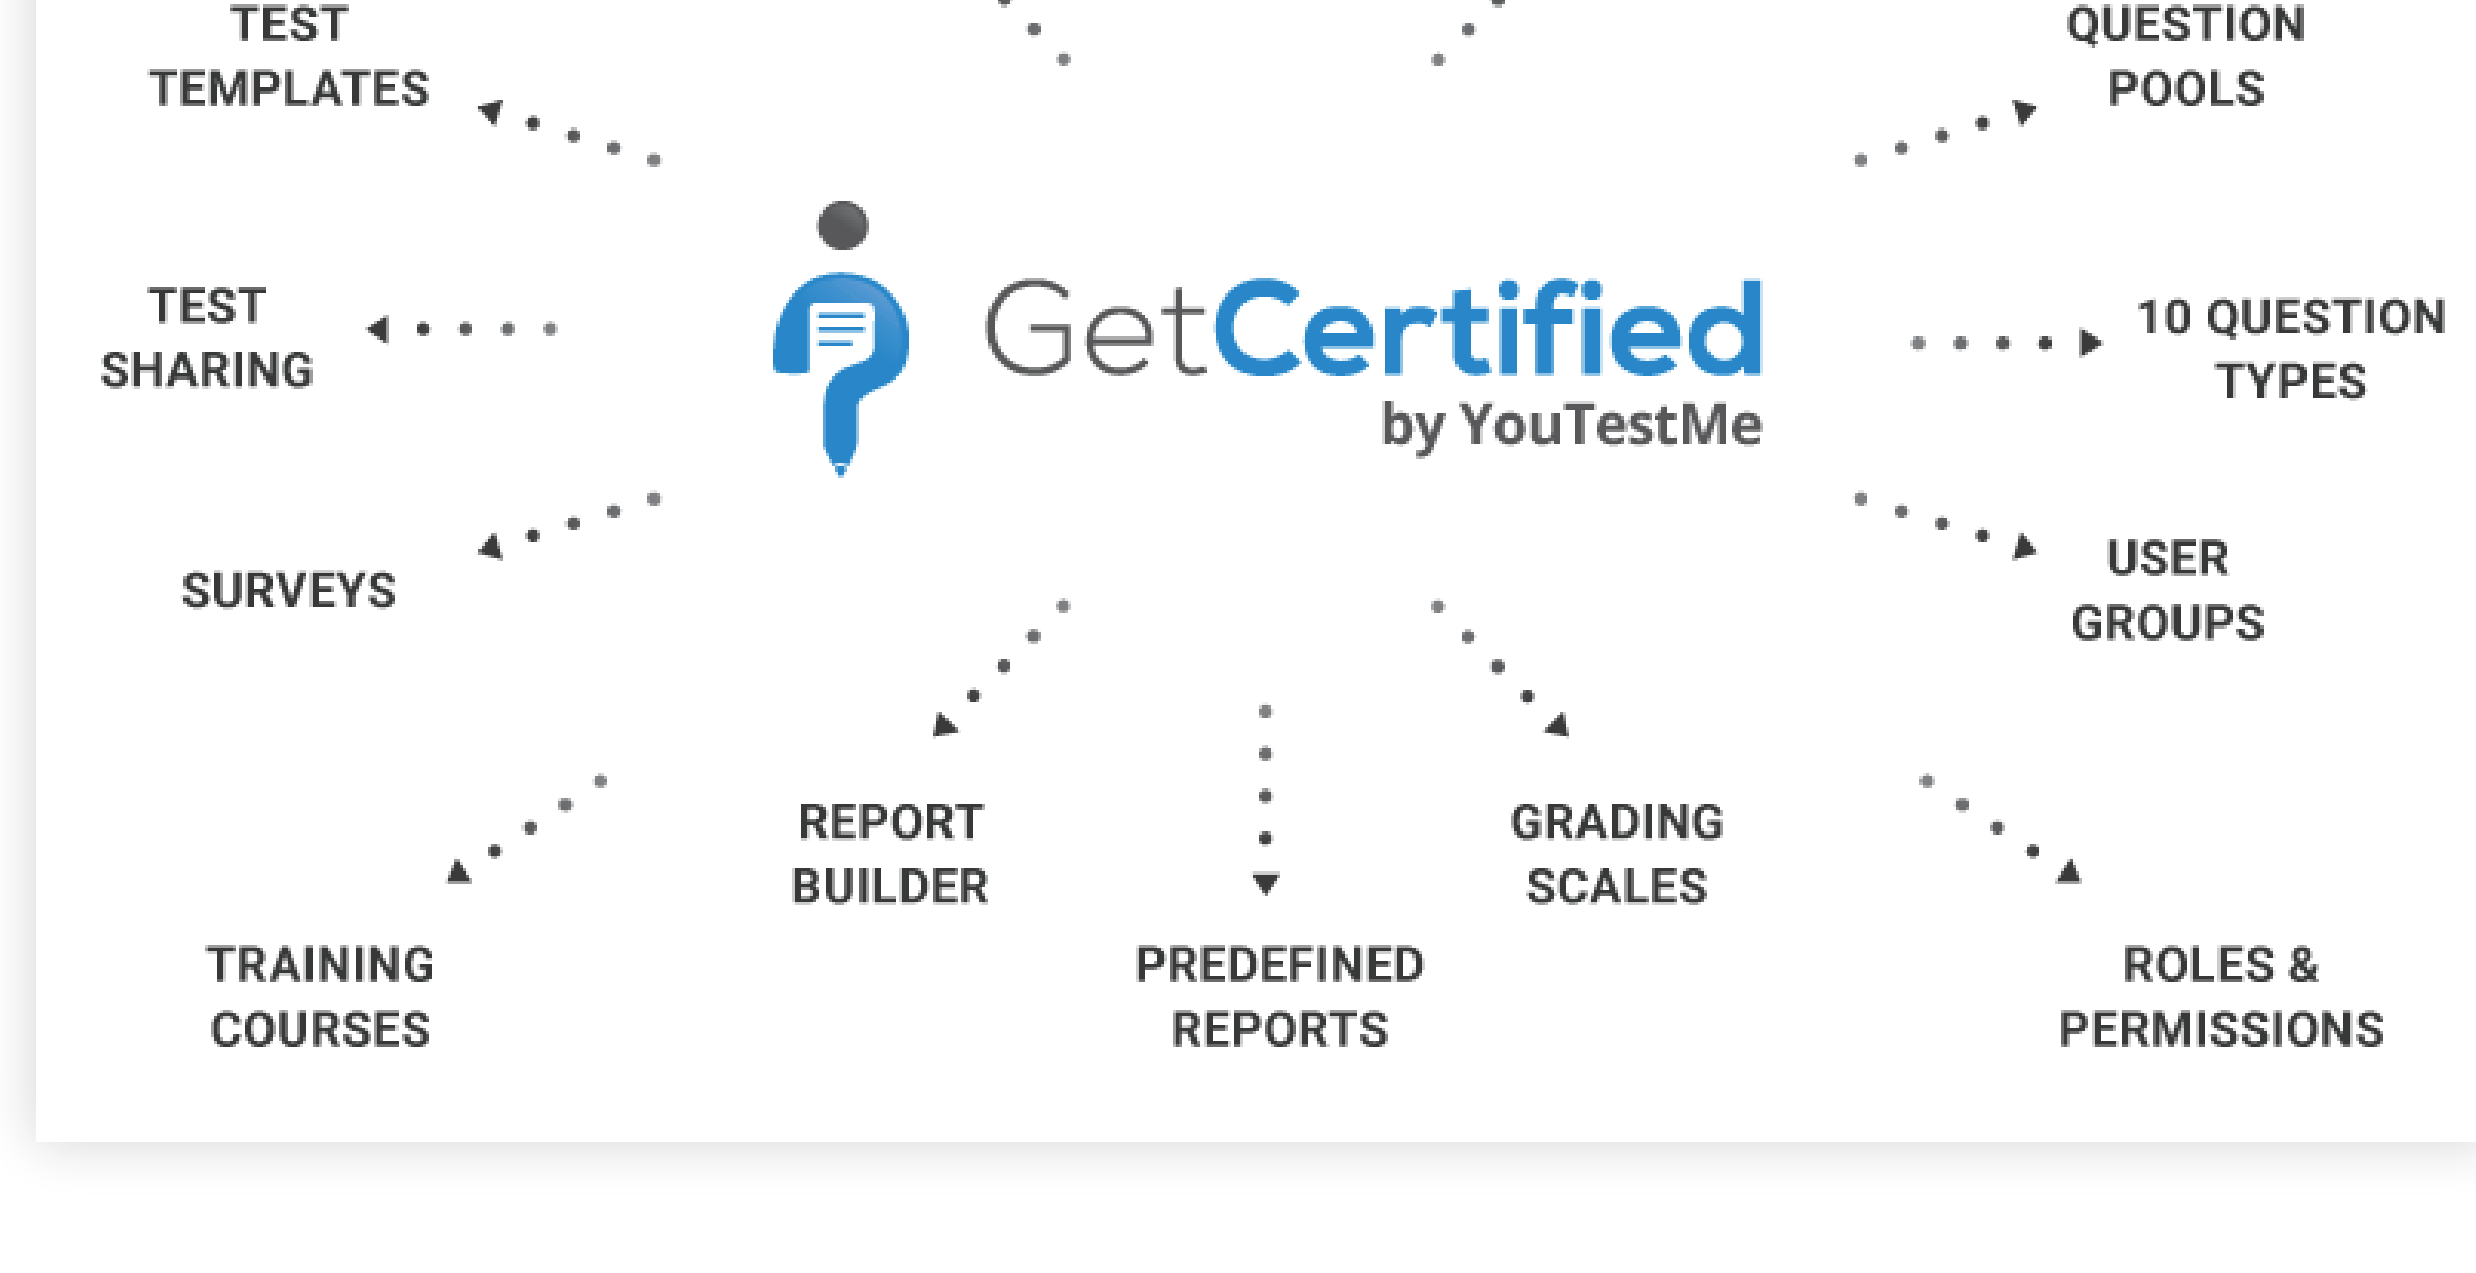

We are a software development company with headquarters in Toronto, Canada.

We deliver secure and complete e-learning solutions, whereas key features include test management, item authoring, and advanced reporting.

### Top 5 Reasons why YouTestMe GetCertified is the Best Training and Knowledge Examination Software

## 1. Flexible Test Management

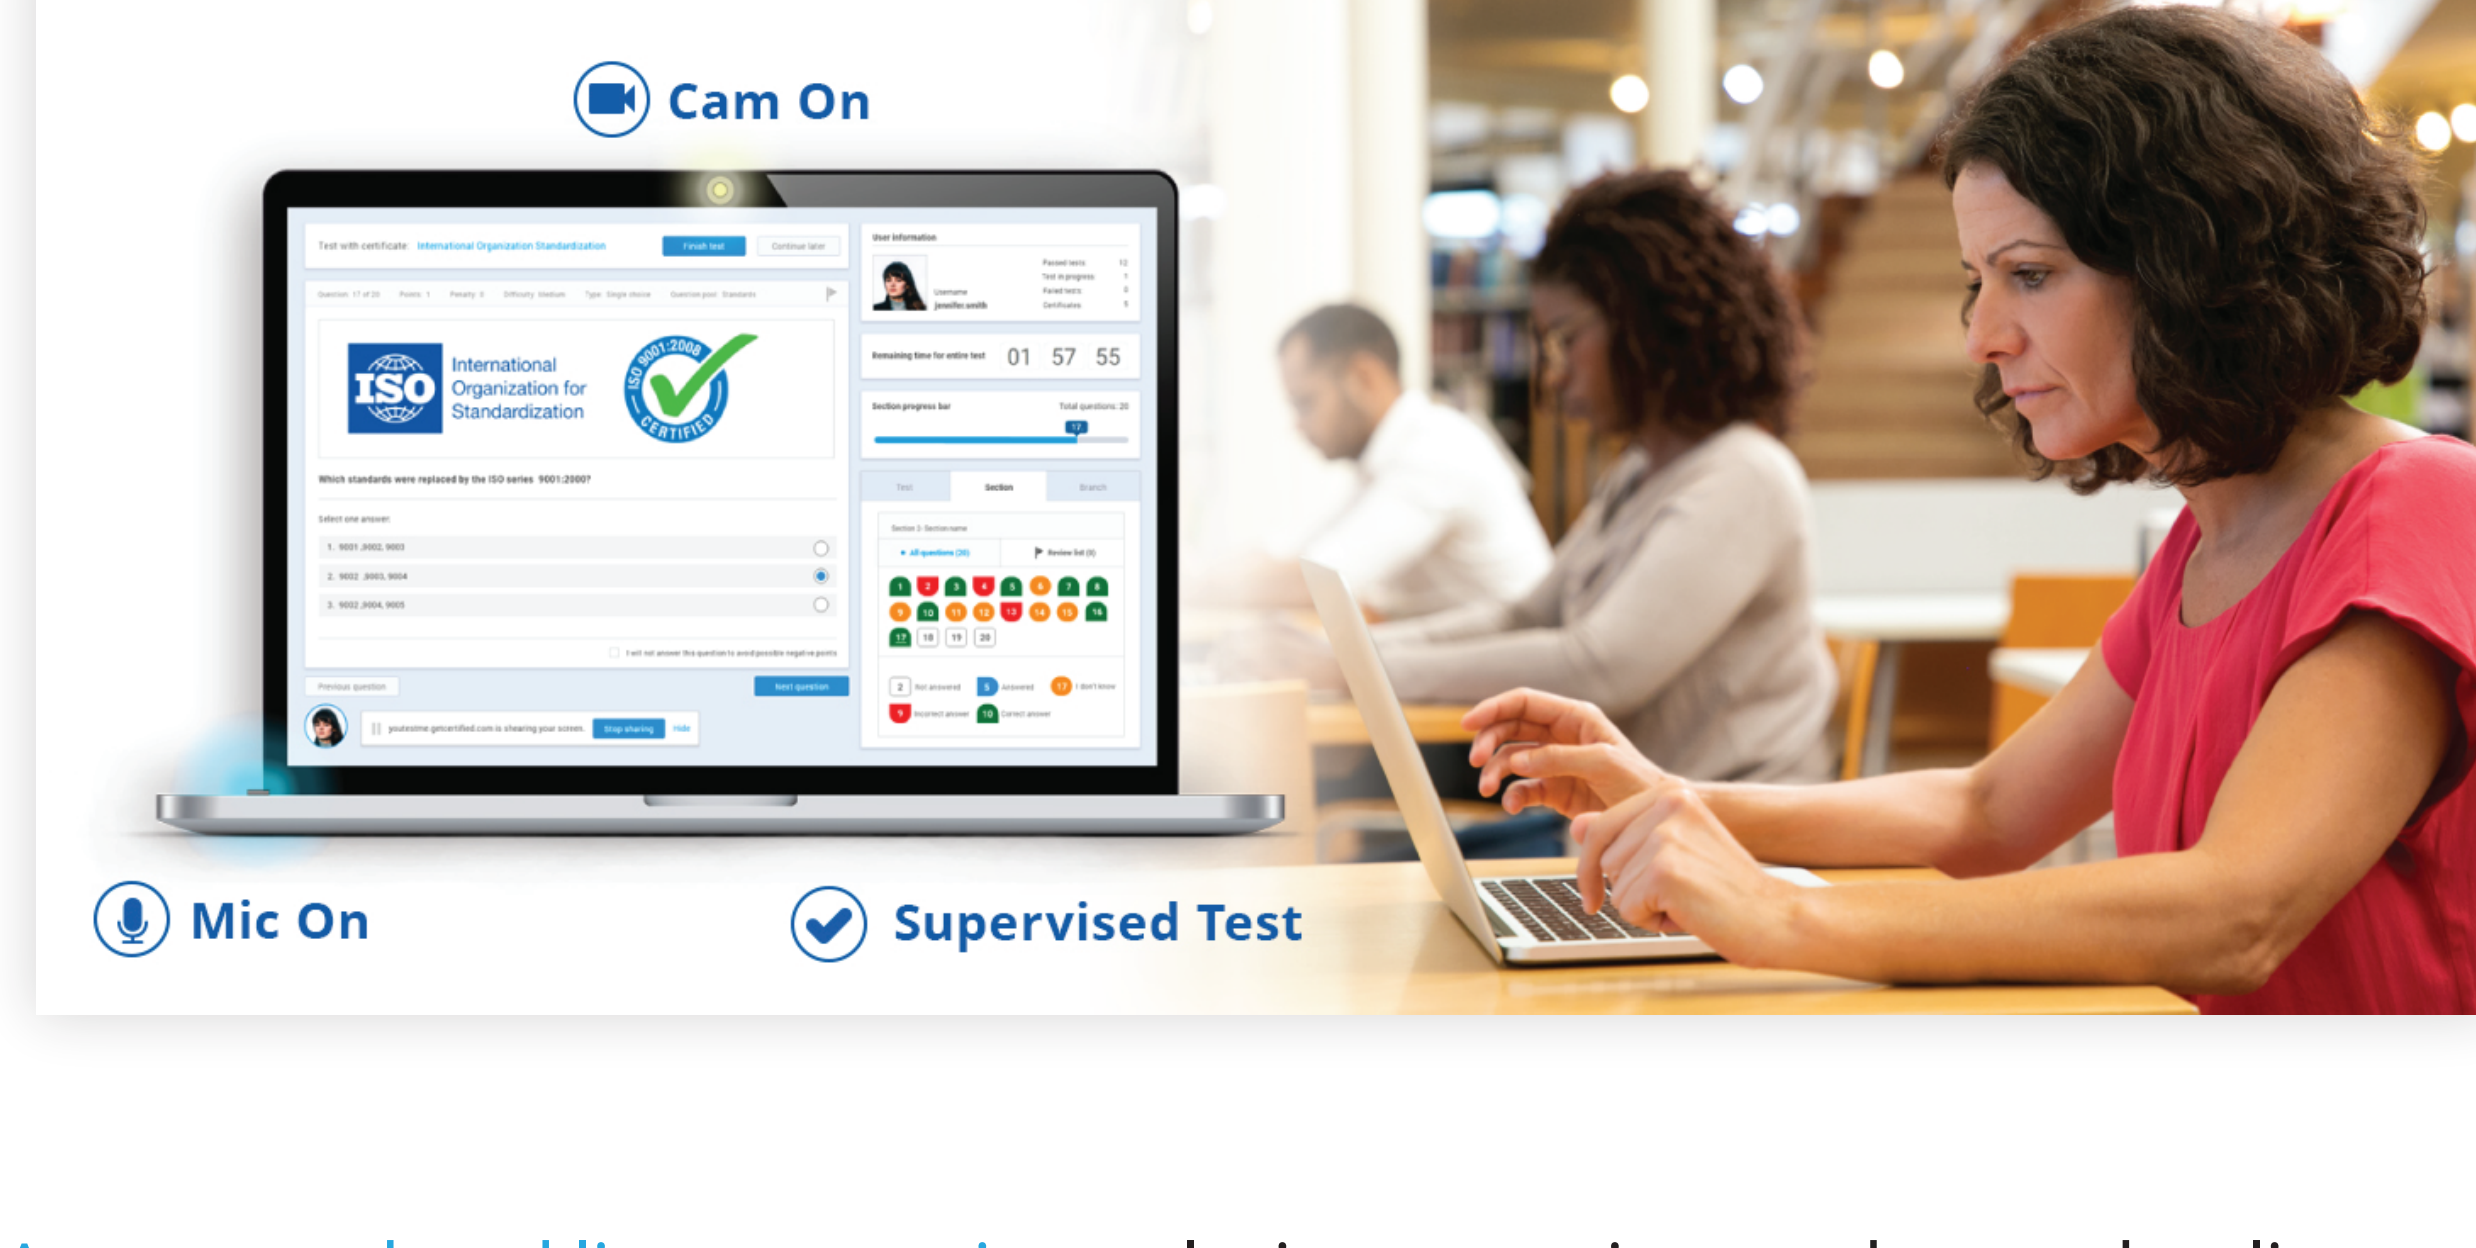

[YouTestMe GetCertified](#) features automated test and answer generators, organizing questions in question pools, users into groups, customizable security roles, certificate designer, advanced reporting system, and much more.

Our solution is highly adaptable to any use-case scenario, every timeline, and budget.

### Online Proctoring

## 2. Secure environment for your high-stakes assessments

[Automated and live proctoring](#) solutions monitor and record online assessments via camera and microphone either by the system or certified proctor.

With behavioral trackers, AI technology, ID authentication, lockdown browser, and post-exam credibility reports, it [ensures test integrity and prevents cheating](#) while allowing candidates to take an exam in their home or office comfort.

### Serving Our Customers

## 3. e-Testing Center, Onboarding & Support

We strive to integrate customer service into every aspect of our business.

[e-Testing center](#) is an end-to-end solution for online examination, whereas our team provides complete organization and management for online assessments. You can rent our services without purchasing software.

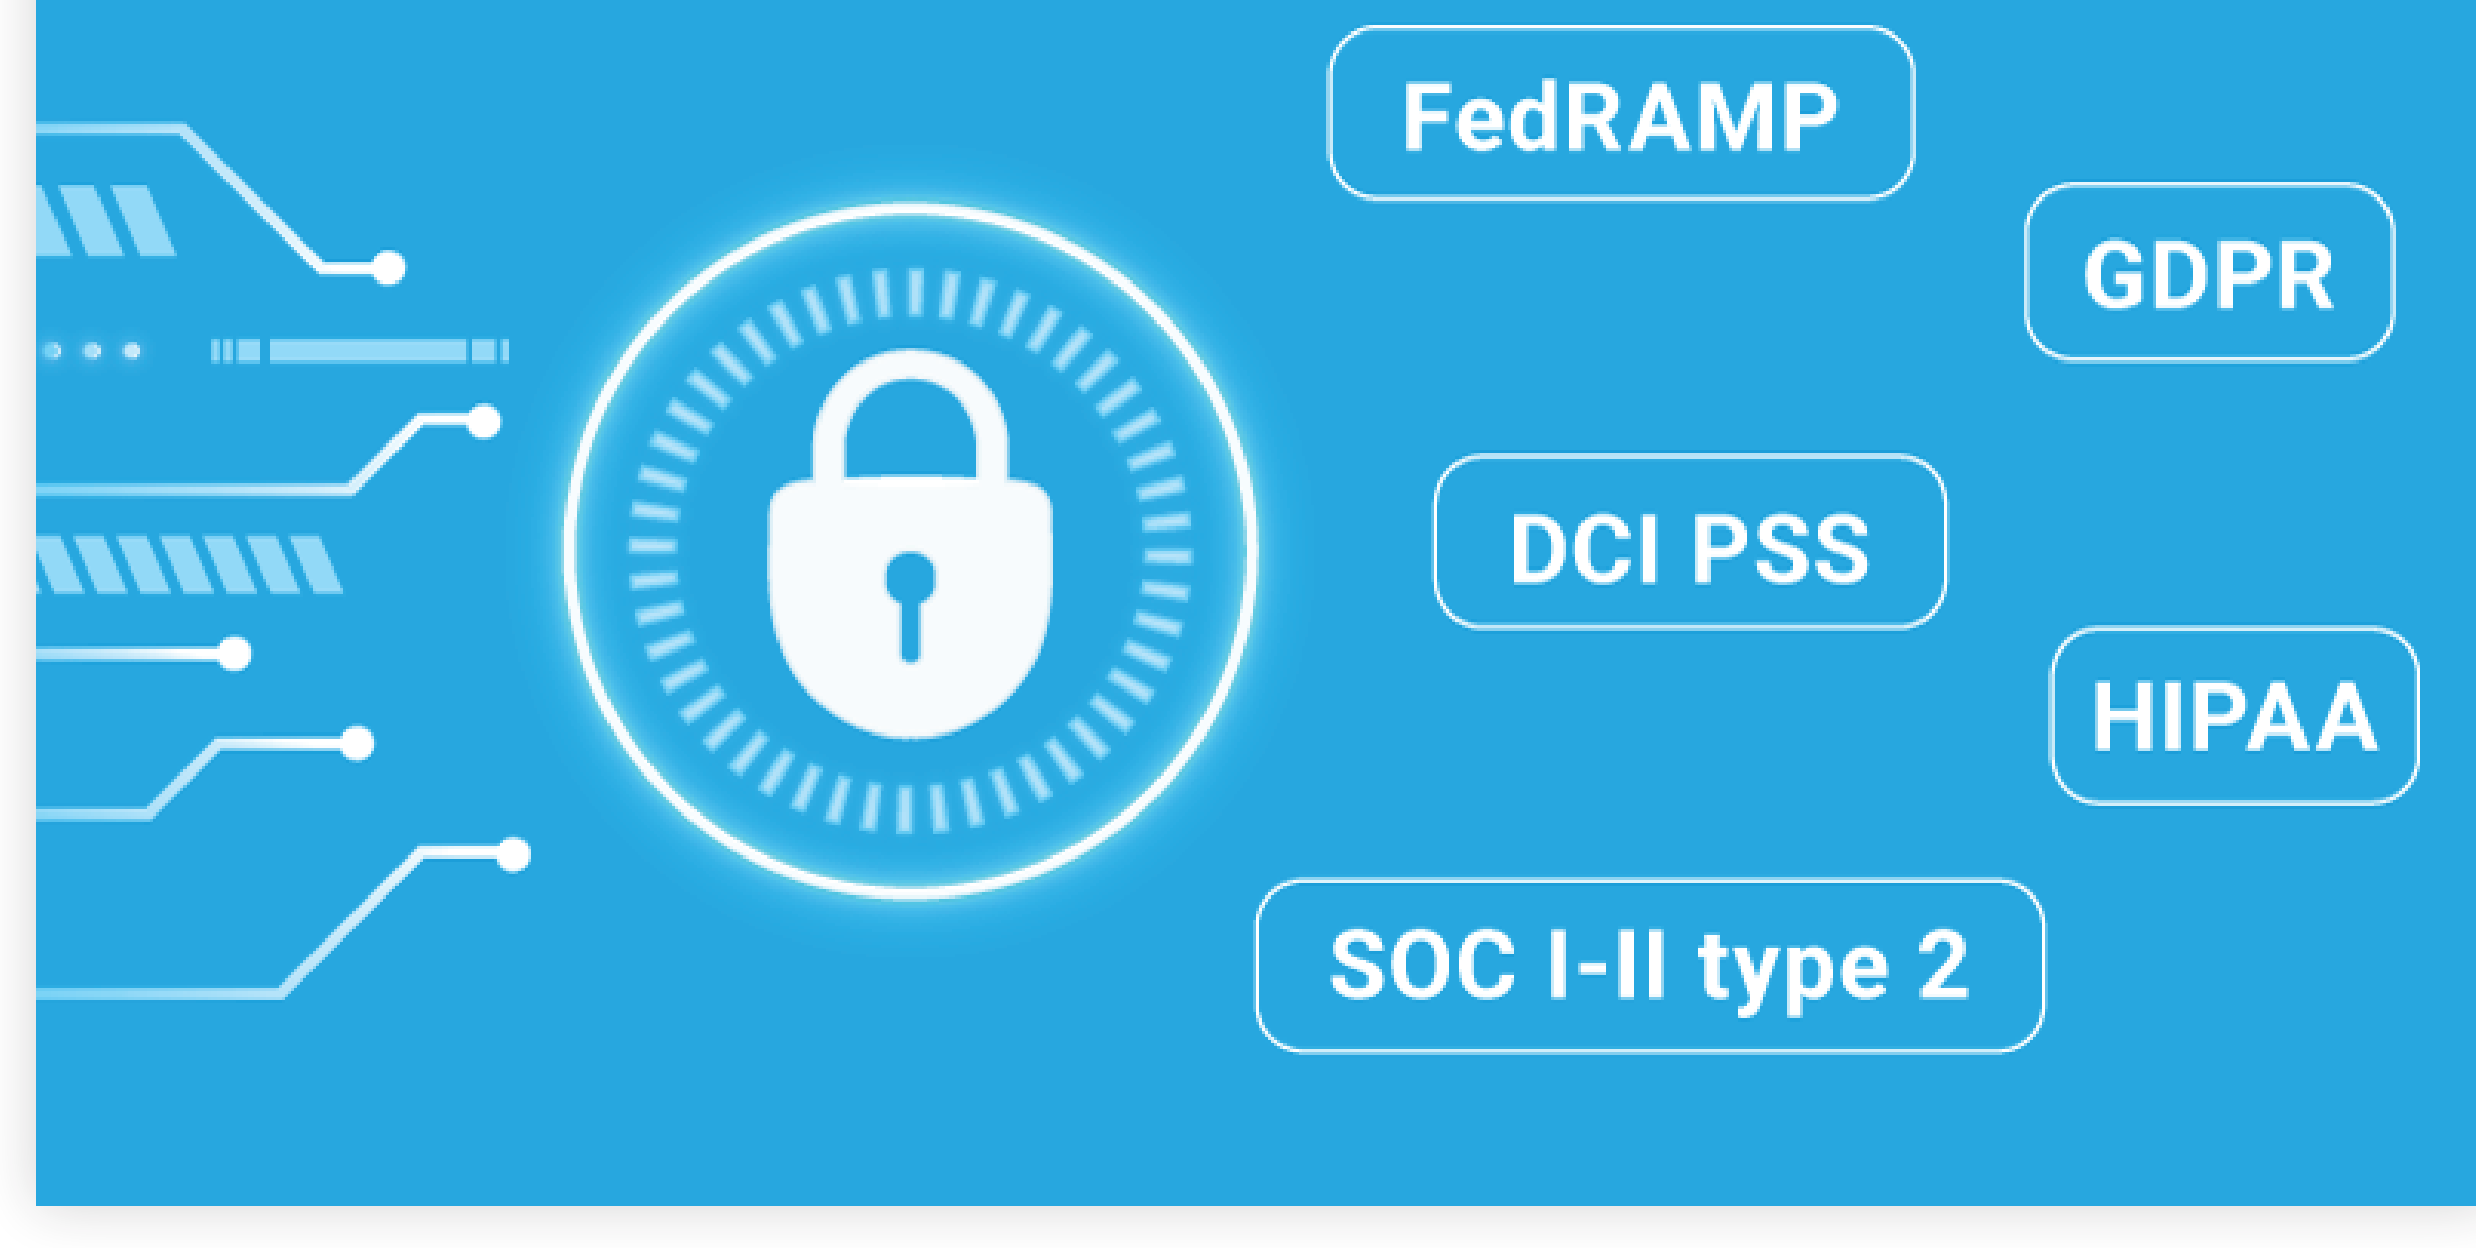

[Support packages](#) and [onboarding](#) procedures are always tailored to meet the client's specific requirements. In addition to the security and data protection, our goal is to ensure our customers are always heard and guided.

## 4. Unlimited possibilities for integrations and customization options

YouTestMe GetCertified can be [integrated](#) with any existing software, including authentication (single sign-on), document management, e-commerce, and data transferring systems. Furthermore, it can accommodate different business models due to its agile development, fast delivery, and the ability to create [personalized features, modules, notifications, and reports](#).

## 5. Highly secure software

YouTestMe GetCertified source code passed US government verification due to its numerous security mechanisms and policies.

Our customers have full control over the application and maximum [data privacy](#) for both on-premise and cloud solutions.

On-premise delivery allows a local network to operate behind your firewall, explaining why most of our customers come from the government, military, and public sector.
