We provide you seamless data syncing with the existing enterprise environment and opportunity for full branding through white labeling.

Lufthansa

Trusted by

AMERICAN
RETIREMENT
ASSOCIATION

Full branding
through white labeling

Effective HR

The possibility to
sell exams worldwide

Seamless data syncing

If you are seeking solutions for

Government, Military & Public Sector

YouTestMe provides superior IT solutions for compliance **training and testing** for government employees.

The examination process is **highly secured** to ensure the integrity of **government certifications**.

Trusted by two **US government agencies**

Unlimited number
of active users

Compliant with U.S.
government standards

Able to **adjust to**
any scenario

Work behind
a government firewall

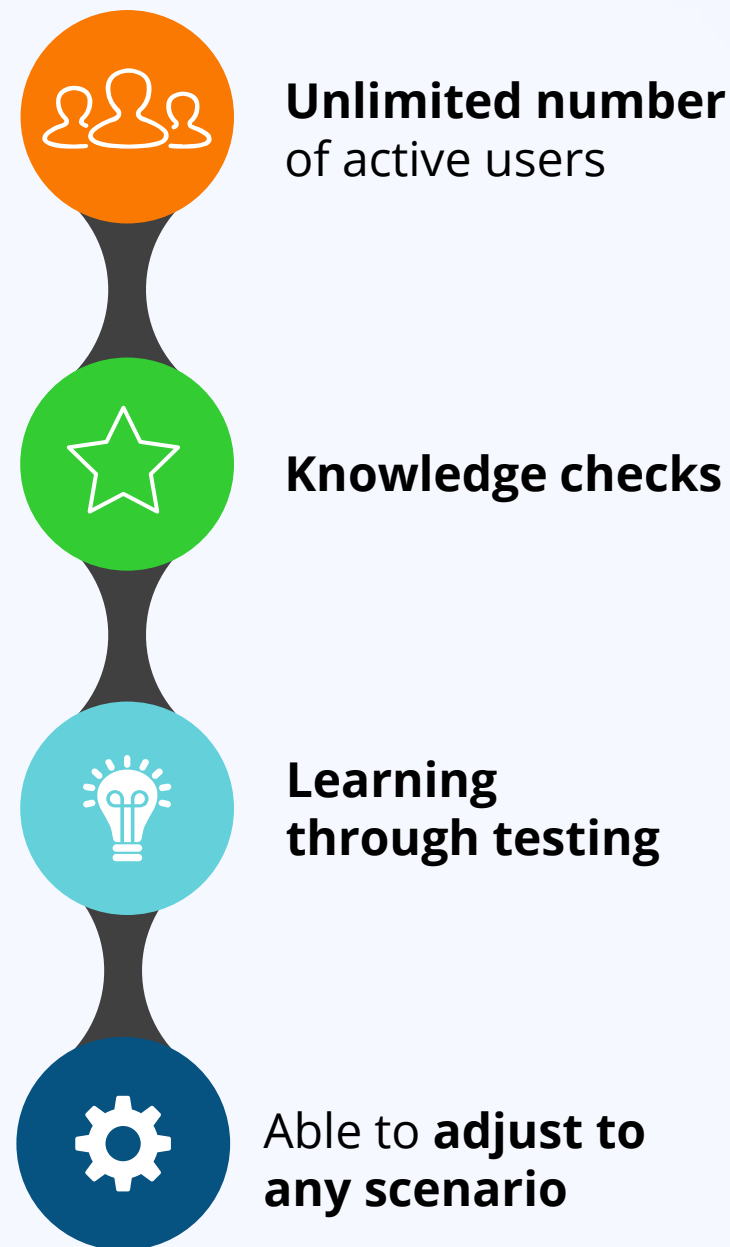

If you are seeking solutions for

Education Sector

Paper-based solutions are costly and environmentally non-friendly. YouTestMe has developed a superior IT solution designed to meet the needs of educational institutions.

Organize **training and testing** for students more effectively and in a **highly secured** process by using **AI or Live Proctoring**.

Trusted by

Employee onboarding process

1. Employees get **credentials via email** or register into the app using a **computer or phone**
2. Employees are **automatically assigned** to their trainings
3. Trainings consist of lessons with **multimedia content**
4. There is a **test at the end** of each training
5. After finishing the test, employees **earn a certificate**

Question randomization option

Recertification on a yearly level, or any other defined time period

Automatic reminders for employees for upcoming obligations

Automatically generated reports for department heads, delivered in desired format (Excel/email/directly in app)

Turnkey solution

Data import and system setup process

Based on detailed analysis of your business practices and training material, **our team provides you with a complete turnkey solution** for setting up your system.

You can modify the application and add new content whenever you want.

Customer Success Story

Customization & Online Testing Center

The Investment Funds Institute of Canada (IFIC) and its educational arm - IFSE Institute, fully transitioned to our Online Testing Center model

They are using our **customized SaaS** to perform online testing in English and French, monitored using YouTestMe **proctors 7 days a week**

More affordable than testing centers

Save money by **automating scheduling, payments, test creation, and reporting** (no manual work)

Make tests **more accessible** to their students (no travel expenses) in the most secure way of knowledge-testing (**artificial intelligence and human monitoring**).

Online Testing Center met their **regulations for live proctoring**.

Customer Success Story

Customization & Online Testing Center

IFSE now uses our system to schedule testing sessions with different capacities and at different times through an **advanced** and **efficient** dashboard used for managing a large number of sessions simultaneously

Sessions are proctored remotely in **real-time** using our AI proctoring and the services of YouTestMe proctors.

Tests are **automatically translated** into the candidate's mother tongue.

Lufthansa

Use case Integration

The second-largest airline in Europe in terms of passengers carried and **our client, Lufthansa, used to have a problem** with the **certification** of departments that speak **different languages** and are in **different time zones**.

Lufthansa's workflow:

- Students start tests from the in-house LMS using a single-sign-on mechanism
- The YouTestMe application leads students through the test-taking process
- After completing the exam, students are navigated back to LMS
- Grades achieved on the exam are sent and recorded to the LMS grade book

Use case

Integration

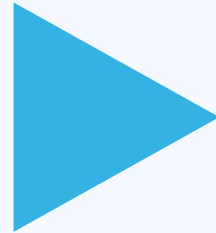

Lufthansa

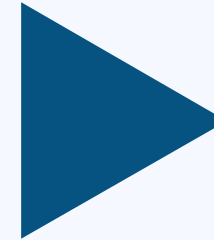

Test creation process

QTI package – used to import questions from LMSs

Excel option – used to bulk-upload thousands of question pools

Test generator – used to create different test versions based on the conditions set by Lufthansa

Customer Success Story

The second-largest city in BC, **the city of Surrey**, uses the **YouTestMe GetCertified system** and our **cloud solution** hosted on a **dedicated server** at the location of their choice, with **data fully encrypted** in transit and at rest.

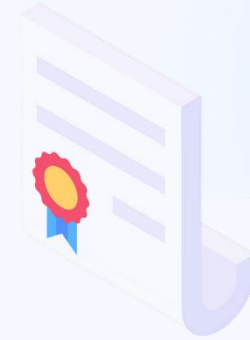

Customer Success Story

The Society for Academic Emergency Medicine (SAEM) creates and promotes scientific discovery, advancement of education, and the highest professional and ethical standards for clinicians, educators, and researchers.

- **SAEM** uses **YouTestMe GetCertified** to conduct tests throughout medical institutions.
- They have **over 30 000 active users**.
- The application enables an effective organization of tests using the user group module.

Customer Success Story

- **CCVA** uses our solution with automated proctoring and e-commerce for bi-annual certification
- Completely **automated** process
- Removes the need for **manual** certificate assignment, suspension after certification expires, and reassignment

To advance excellence in volunteer administration by delivering professional certification and advocating the ethical practice.

Customer Success Story

Europe's **largest** provider of education programs for **entrepreneurship, work readiness, and financial literacy**.

Automatic, multilingual, multinational, and uniform organization of tests.

Each country belonging to the organization has the same test, only **translated** into the appropriate language. The translation is done **automatically**. Every country has its respective **admin** whose obligation is to manage the candidates.

Customer Success Story

YouTestMe GetCertified also supports **time zone preferences**.

A single test can be organized in many different sessions,
all of which can have their own time zones in accordance with their location.

Integrations

Seamlessly integrate YouTestMe GetCertified into your business environment and access the data from other services and systems.

- ✓ Seamless test-taking via API
- ✓ Zapier
- ✓ LTI
- ✓ Active Directory
- ✓ QTI
- ✓ Scheduled importing and exporting data
- ✓ xAPI and SCORM
- ✓ Scantron results importing

Integrations

The most common scenarios:

Our **Zapier** endpoints and test links allow you to achieve a similar scenario by integrating YouTestMe with your website and existing systems and fully automating data exchange.

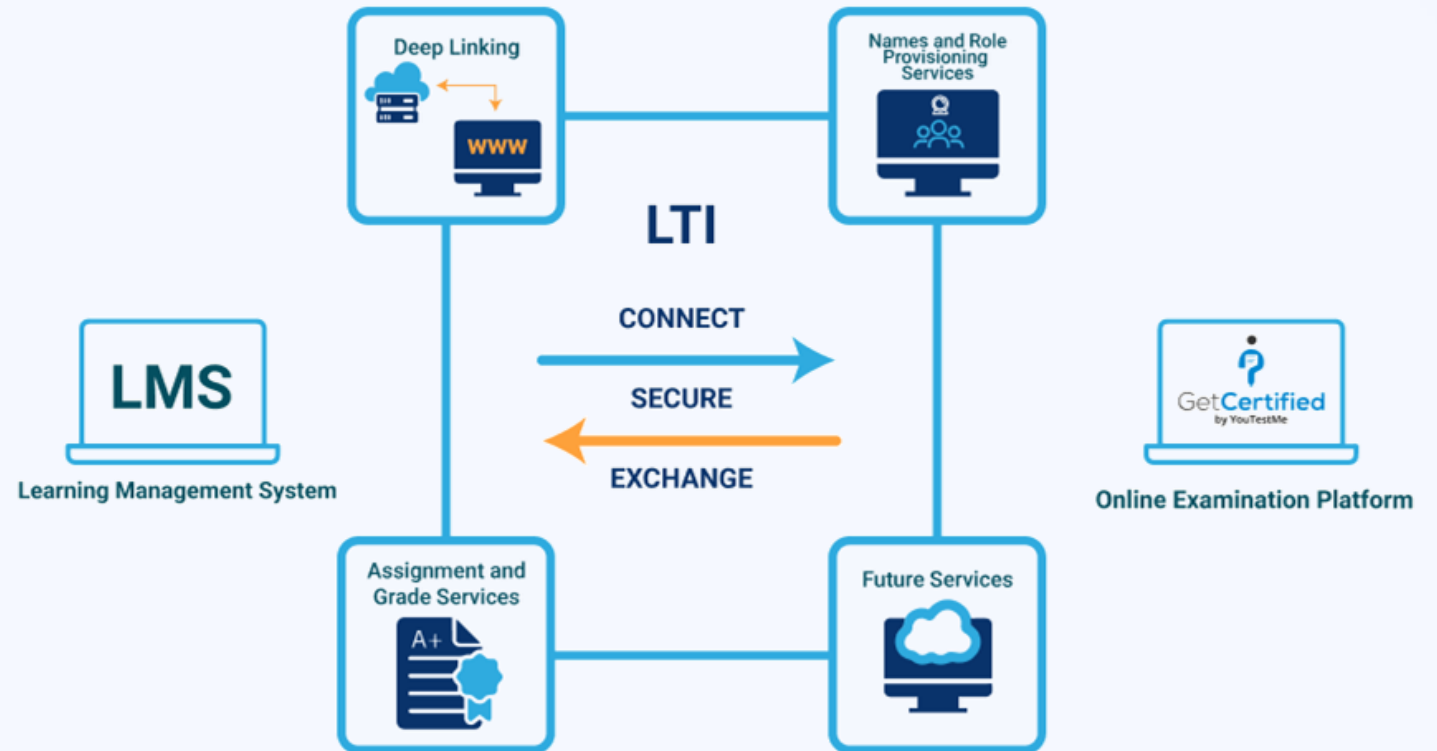

Tests and test results can also be sent to other platforms using standards such as:

- **xAPI**
- **SCORM**
- **SAML 2.0**
- **OpenID Connect**

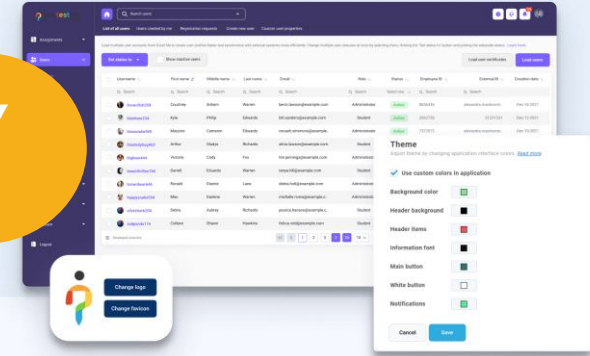

Integrations

The most common scenarios:

Allowing to start the test from the LMS through LTI or a custom API-based integration with automatic sending of both the candidate and test results back to the LMS

We support your business with the superior process of Customization

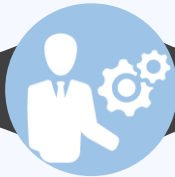

YouTestMe can accommodate different business models due to its **agile development, fast delivery**, and the ability to **create personalized features**, modules, notifications, and reports.

Reinforce branding of knowledge assessment platform to create a familiar, learner-centric experience for your candidates – use your logo, labels, and colors.

Modules & Features

IF YOU HAVE A PROBLEM WITH

Time-consuming commutes

Candidates need to travel to specific test centers at specific times

Big expenses

Instructors need to handle payments, testing sessions, test centres, proctors, reports, recertifications, and more

Meeting security requirements

Government and large corporations require on-premise delivery, 508-compliance, and thorough security checks

WE PROVIDE THE SOLUTION

Remote testing with proctoring

Candidates can take proctored tests at any time and place without the test integrity being jeopardized

End-to-End Automation

Test creation, booking, payments, proctoring, grading, reporting, recertification are all automated – an Online Testing Center

The Only Solution Compliant with all Security Standards

YouTestMe passed the US Government security scans, is 508-compliant ready, and has the on-premise option

Advantages of YouTestMe solution

You have **everything** you need to organize knowledge efficiently:

Automated employee training and onboarding

Storing and organizing questions and item analysis

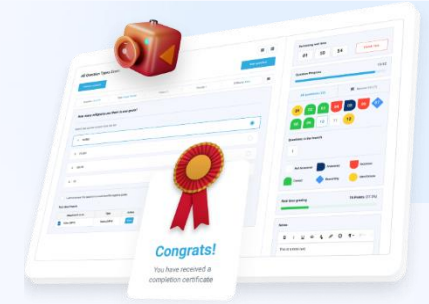

Organization of departments in workspaces

Permission control

Advantages of YouTestMe solution

This system will boost your reputation through:

- ✓ branded certificates
- ✓ selling tests
- ✓ training courses online using a Stripe integration
- ✓ complete white labeling

A screenshot of the YouTestMe admin dashboard. The interface is dark-themed with a purple sidebar containing navigation links like 'Assignments', 'Users', 'Tests', 'Surveys', 'Training courses', 'Reporting', 'System', and 'Logout'. The main content area shows a 'List of all users' table with columns for Username, First name, Middle name, Last name, Email, Role, Status, Employee ID, External ID, and Creation date. Below the table, there's a 'Theme' customization panel with options for 'Background color', 'Header background', 'Header items', 'Information font', 'Main button', 'White button', and 'Notifications'. A 'Change logo' and 'Change favicon' dialog is also visible at the bottom left.

Unique features

Worldwide Data Centers

Our worldwide data centers provide seamless access to our powerful testing software from anywhere in the world.

- ✓ Conduct unlimited tests from anywhere in the world
- ✓ Remote access to a network of servers in different regions
- ✓ High availability and reliability for uninterrupted testing
- ✓ Scalable testing solutions to cater to unlimited volumes

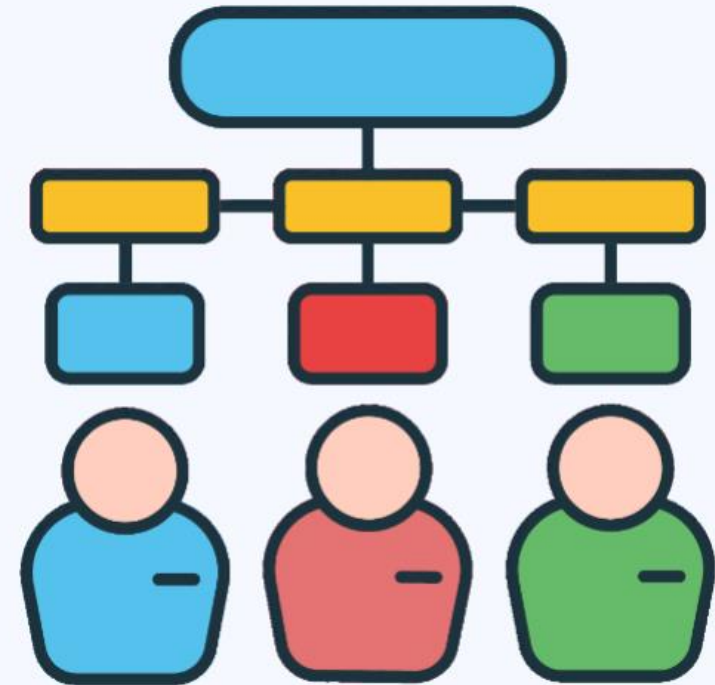

Unique features

Workspaces

Experience seamless collaboration and productivity with our multi-tenant workspaces!

- ✓ Separate departments or organizations within the same software platform
- ✓ Each workspace has its own branding, customizations, and access control
- ✓ Enhances privacy and security
- ✓ Increases efficiency and collaboration

Unlimited Question Pools

Access an ever-expanding library of questions, ensuring that your tests remain fresh and challenging for all users no matter the industry.

- ✓ Avoids repetition of questions
- ✓ Improves test accuracy
- ✓ Saves time and effort for trainers and educators
- ✓ Scalable for different industries
- ✓ Enhances learning experience

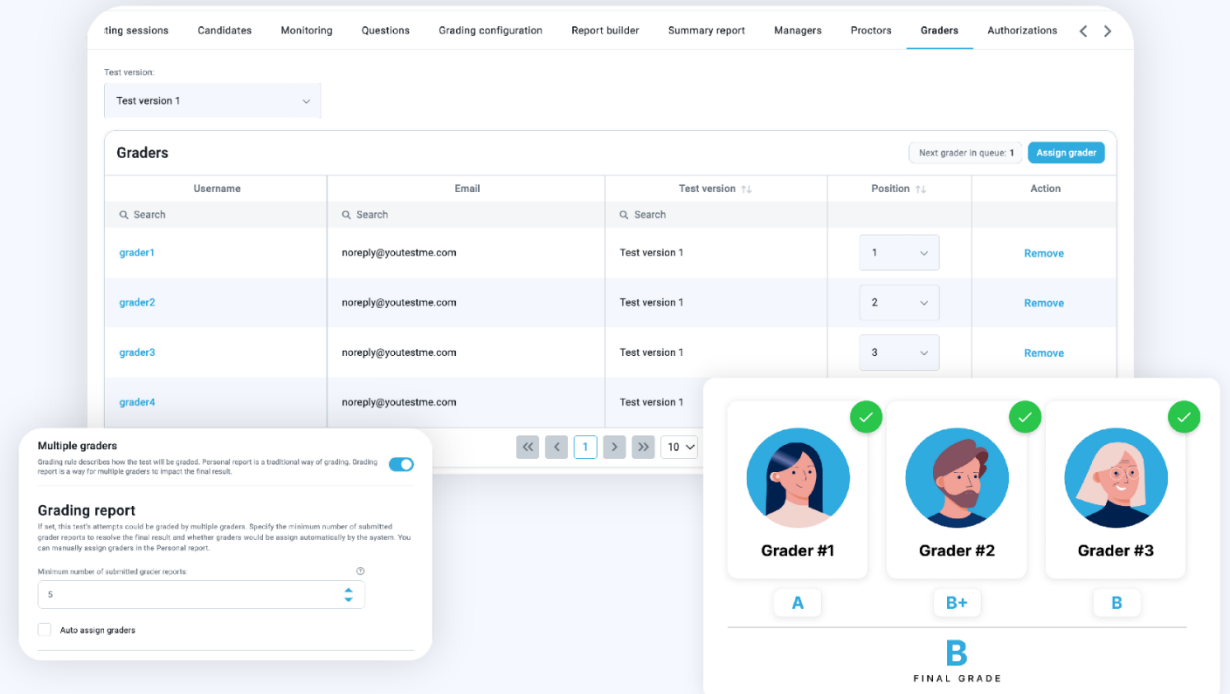

Benefits of youtestme

An **all-in-one** test engine with seamless **integration**, plus advanced **evaluation and grading** features

Offers **accurate evaluation** and grading options, including:

- ✓ **Grading scales**
- ✓ **Multiple graders**
- ✓ **Automated score calculation,**
- ✓ **Configurable reporting**
- ✓ **Custom, branded reports**

Integrates with **external systems** and **facilitates data migration** allowing you to use it as a test engine while maintaining connectivity with other apps 

The screenshot displays the 'Graders' management interface in the youtestme application. At the top, a navigation bar includes links for 'ting sessions', 'Candidates', 'Monitoring', 'Questions', 'Grading configuration', 'Report builder', 'Summary report', 'Managers', 'Proctors', 'Graders', and 'Authorizations'. The 'Graders' tab is active, showing a table with columns for Username, Email, Test version, Position, and Action. Four graders are listed, all with the email 'noreply@youtestme.com' and 'Test version 1'. Below the table, a 'Grading report' modal is open, showing a 'Multiple graders' section with a toggle switch and a 'Grading report' section with a text area and a 'Minimum number of submitted grader reports' input field. To the right, a 'Summary report' card shows three graders with their respective scores: Grader #1 (A), Grader #2 (B+), and Grader #3 (B), leading to a final grade of B.

Username	Email	Test version	Position	Action
grader1	noreply@youtestme.com	Test version 1	1	Remove
grader2	noreply@youtestme.com	Test version 1	2	Remove
grader3	noreply@youtestme.com	Test version 1	3	Remove
grader4	noreply@youtestme.com	Test version 1		

Grading report

Multiple graders

Grading rule describes how the test will be graded. Personal report is a traditional way of grading. Grading report is a way for multiple graders to impact the final result.

Grading report

If set, this test's attempts could be graded by multiple graders. Specify the minimum number of submitted grader reports to resolve the final result and whether graders would be assigned automatically by the system. You can manually assign graders in the Personal report.

Minimum number of submitted grader reports: 5

☐ Auto assign graders

Summary report

Grader #1: A
Grader #2: B+
Grader #3: B
Final Grade: B
