Cheating Prevention Mechanisms

- **Automated and Live Proctoring**, or Proctoring using Conference Tools (Webex, Google Meet, Zoom, etc.)
- **Live monitoring –** detailed preview of the candidates' test progress and results
- **Browser lockdown –** prevents cutting, saving or printing anything from the screen
- Test, question, and answer **generator**
- Question and answer **randomization**

Automated Proctoring

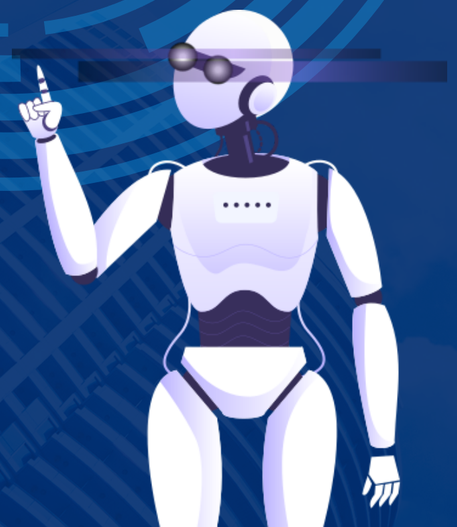
By utilizing artificial intelligence (AI) technology, the system itself records and monitors test attempts using behavioral trackers. Once the exam is finished, the system generates a credibility report and stores the exam footage for the optional subsequent human validation and review.

Key features:

- Authentication of Candidates
- Real-Time Monitoring
- Video Archiving and Review

youtestme

AI PROCTORING



Real-time Monitoring

- **Suspicious behavior** is flagged using behavioral trackers
- Marks moments when there are multiple or u**nauthorized face**s in front of the camera, background noise, changing focus to another window,
- Automatic **screen lock** in case of a violation
- **Credibility report** with the score and assessment of candidates' behavior

AI PROCTORING

The proctoring system automatically tracks the following events:

- The absence of a human face in front of a camera
- Multiple or unauthorized faces in front of the camera
- Opening of any additional page in the browser
- Exiting the full-screen mode
- Background noise or conversation
- Changing the focus to a different window
- Having an additional display
- A muted microphone
- Unrecognized typing patterns

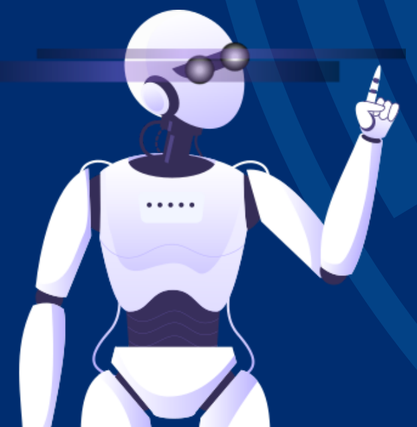
Authentication of Candidates

- Equipment check
- Human face recognition
- Additional ID verification

Record and Review

Test recordings are stored on the cloud and available for additional human review.

Test managers can verify credibility reports generated by the system.



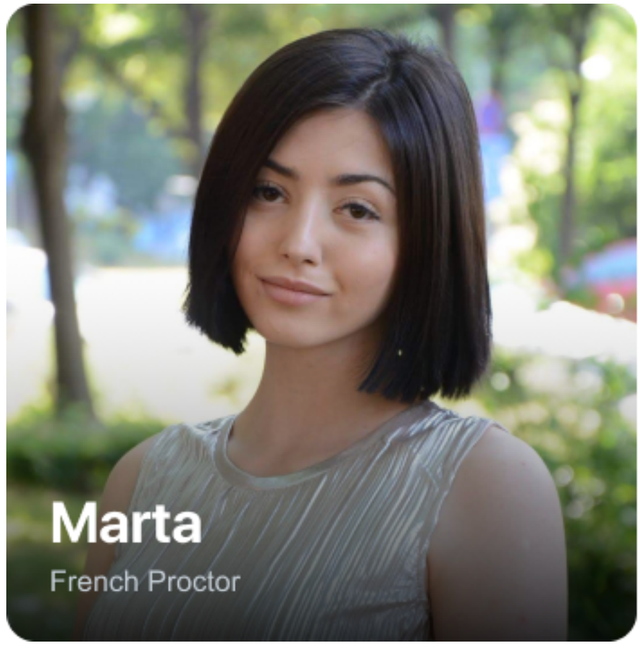
LIVE PROCTORING

Live proctoring is a hybrid model that includes **a formal human audit in addition to automated proctoring**.
This is the most secure solution that **minimizes the chances of cheating to an absolute minimum**, ideal for **high-stake exams**.

YouTestMe certified proctors are trained to handle all the test monitoring in a lawful manner, which helps test owners feel more comfortable that **the integrity of their test is protected.**

MEET OUR PROCTORS

Meet our highly trained and experienced proctors at YouTestMe, ready to assist you in ensuring a secure and fair testing environment.



LIVE PROCTORING

youtestme

Proctors are responsible for:

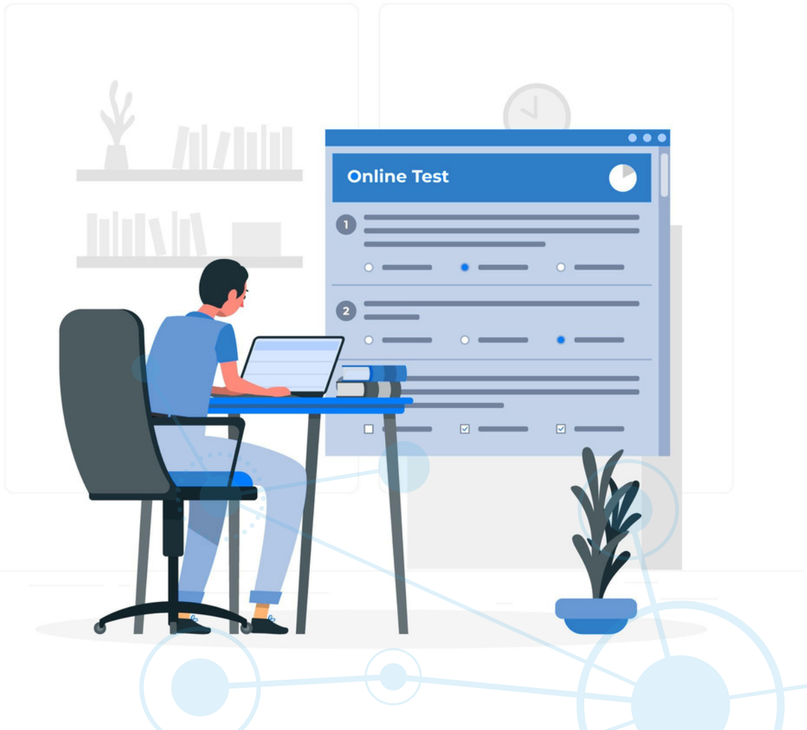
- Supervising the exam in real-time
- Ruling out cheating behavior personally
- Using an automated proctoring system as an additional security layer: behavioral trackers, video recording, and reports generating
- Asking candidates to connect an additional mobile camera for the view of 360°

Live proctoring sessions

The recommended number of candidates that a single proctor can monitor is 16, and you can hire YouTestMe GetCertified proctors for English and French speakers.

LIVE PROCTORING

Test-takers perspective



- Complete the automated equipment check and allow camera and microphone usage
- Let the system take your photo
- Show your identification document (optional)
- Allow the sharing of your screen when prompted
- Starting the test

THE MAIN BENEFITS OF YOUTESTME PROCTORING SOLUTIONS

Convenience and comfort

Students can take exams anytime and anyplace. This method is convenient both for students and test managers since it requires no previous scheduling and allows the option of taking practice tests to help optimize test-taking performance.

Affordability

The use of technology means a significantly lower cost (by 30-40 percent) than human-based approaches, which allows our clients to lessen the financial burden on themselves and the test-takers.

youtestme

THE MAIN BENEFITS OF YOUTESTME PROCTORING SOLUTIONS

Scalability

With this method, technology is used for self-service and the system architecture allows an unlimited number of tests to be taken simultaneously by an unlimited number of users.

Professional Review and Accountability

The computer or proctor first monitors exam sessions, and other proctors or administrators can afterward review their recordings. Multiple reviews ensure the validity of the exam results.
