1 Introduction

YouTestMe – Classroom2020 is a system for testing, certification and learning through testing. It consists of advanced user management, question pool manipulation, comprehensive reports and a test generator.

2 Logging into the Application

Once you have completed the installation process and network setup on your virtual machine according to the Installation Manual, you should be able to access the login page on its respective URL. The login screen should resemble the picture below. Note that the logo and colors may vary depending on application branding.

	E LANGUAGE CONTACT	
Ś		REGISTER
Classroom2020		First name Last name Date of birth:
admi		Administrator *
Password		E-mail
Forgot password? Sign in		5DV4J Security code
		Sign up

2.1 User Accounts

When logging for the first time, you can use one of the following accounts:

Username	Password
admin	Admin12#
instructor	Instructor12#
attendant	Attendant12#

We strongly advise you to change the predefined passwords upon the first login. This is done on the personal profile screen. Click on "Change password."

3 Mail Server

YouTestMe – Classroom2020 possesses a feature to send email notifications for certain events (receiving test requests, role change). To properly set up this feature, it is necessary to enter the mail server parameters on the Settings page. See the picture below for an example with dummy data:

SYSTEM ADMINISTRATION • VERSION:4.1.2

Add new	Mail server:	smtp.gmail.com (Active)			
lost	smtp.gmail.com	Port	587		
MTP Auth.		Start TLS			
Isername	ytm.system@gmail.com	Password:			
system e-mail	ytm.system@gmail.com	Support e-mail	ytm.system@gmail.com		
Action					

The system will come with a predefined Google mail account and server. It is strongly advised to change the parameters into your institution's mail server parameters.

Username	Password	Host	Port
ytm.system@gmail.com	@\$^ytm#%	smtp.gmail.com	587

4 Contact
