1 Introduction

This document's purpose is to show that the navigation order of elements is logical and intuitive. The Tab index navigates through all form fields.

1.1 Precondition – Accessibility mode

To enter accessibility mode, follow these steps:

1. In the Users section, select My Profile.

| | | Homepage | | | C Search anything |

2 Tab index navigation

As demonstrated on the **Home page** of the application, the **Tab** key allows navigation in the following order:

3. Firstly, the left-side menu (to skip this step, use the Skip navigation button).
