1 Introduction

This document's purpose is to explain the ability to pull metrics on all terminal learning objectives.

2 Metrics on all terminal learning objectives

To check metrics on all terminal learning objectives, do the following:

1. Hover to the **Tests** tab in the main menu.
2. Select the **Manage tests** tab.
3. Select the desired test.

The screenshot shows the 'Manage tests' page. A table lists various tests. The test 'Quick Quiz - Banking - 20th Centu...' is highlighted with a red border. A red circle with the number '3' is positioned to the left of the test name.

Name	Creation date	Status	ID	External ID	Creation type	Proctored
Banking - Certification Exam	Sep-07-2022	Suspended	1872		Generated	No
Quick Quiz - Cryptocurrency	Sep-07-2022	Published	1871		Generated	No

Project Management Certification	Aug-17-2022	Published	1863		Manually created	No

4. Select the **Report builder** tab
5. Select username and all of the fields related to question pools.

The screenshot shows the 'Report builder' page. Under the 'Report columns' section, the 'Username' field is selected and highlighted with a red box. In the 'Pool columns' section, 'Points', 'Total points', 'Score (%)', and 'Passed' are selected and highlighted with a red box. A red circle with the number '5' is placed over the 'Passed' checkbox.

Note: Question pools are used to group questions by subject areas. You can import questions in test or testing sections from as many question pools as necessary.

After checking the desired options, click on the **Display report** button:

The screenshot shows the 'Report builder' interface. At the top, there are navigation tabs: Settings, Testing sessions, Candidates, Monitoring, Test sections, Grading configuration, **Report builder**, Summary report, Managers, Proctors, Authorizations, and Comments. Below the tabs, there's a 'Report builder' section with a 'Save as' dropdown and a 'Display report' button (highlighted with a red box). Underneath, there's a 'Report columns' section with a 'Load template' dropdown set to 'Demo report builder' and an 'Edit column titles' button. The main area contains several columns of checkboxes for selecting report metrics:

- User columns:** ID, External ID, Username (checked), Employee ID, First name, Last name, Middle name, Email, Date of birth, Gender, Phone number, Affiliation, etc.
- Session columns:** ID, Name
- Test columns:** ID, External ID, Name, Version, Version ID, Archived, Archivation date, Result verified, Verification date, Started, Finished, Time spent, etc.
- Test section columns:** Points, Total points, Score (%), Grade, Passed
- Question columns:** ID, External ID, Text, Type, Correct answer, Answered, Points, Total points, Time to answer, Question pool
- Pool columns:** Points (checked), Total points (checked), Score (%) (checked), Passed (checked)
- Custom property report columns:** Points, Total points, Score (%), Passed, Grade

We will be able to see how each candidate performed on each question pool (subject areas). From this particular example, we can see the results from the Post-Test survey and Dimensions of the planes question pools.

The screenshot shows the 'Report builder' interface with a data table. At the top, there's a 'Back to report builder' button. The table has the following structure:

User	Question pools											
	Question pool Post-Test Survey				Question pool Dimensions of the planets				Question pool Solar System			
Username	Points	Total points	Score (%)	Passed	Points	Total points	Score (%)	Passed	Points	Total points	Score	
Adam	0	0	0.00	No	0.00	6	0.00	No	0.00	6		
Borpes	0.00	0	0.00	No	6.00	6	100.00	Yes	4.00	6		
anna.smith	0.00	0	0.00	No	-1.00	6	0.00	No	1.00	6		
Aliver62	0.00	0	0.00	No	-1.00	6	0.00	No	6.00	6		
Adam	0.00	0	0.00	No	2.00	6	33.33	Yes	4.00	6		
Abled1997	0.00	0	0.00	No	1.00	6	16.67	No	1.00	6		
Acessier	0.00	0	0.00	No	6.00	6	100.00	Yes	6.00	6		
student	0	0	0.00	No	1.00	6	16.67	No	1.00	6		
aaron	0.00	0	0.00	No	-1.00	6	0.00	No	1.00	6		

At the bottom of the table, there are navigation arrows and a 'Rows: 9' indicator.
