1 Introduction

This document's purpose is to explain how to create single-choice questions with variable scoring for each

2 Adding questions to question pool

To access the question pool, you should navigate to **Tests** and select **Question pools**.

To add questions into a new question pool, you should:

- 1. Click the **New** button.
- 2. Enter the name of the question pool.
- 3. Click Save.

3 Single choice question type

Single-choice questions offer multiple possible answers, where only one can be selected as the correct.

To create a single choice question, you should:

- 1. Click on the **Questions** tab.
- 2. Click the Add question button and select the Single choice option.
