3	Displaying feedbacks from the candidate's perspective7

#### **1** Introduction

This document explains how to provide feedback to selected answers. Answer feedback can be defined for each answer and displayed when the candidate selects the corresponding answer in the test.

### 2 Creating a test

Hover over the Tests in the main menu and select New test.

	New test						Q Search anything	o o 📲 🎯 -

In the fifth step of the test creation wizard, choose how to add questions to your test. After you import or create new questions, you can add feedback to the desired questions and answers. Click on the **Action** option to open the question editor.

For example, click on the Action option and select the **Add feedback for this answer** to add feedback on the multiple-choice question type. Please see the **Question pools topic** for more information on how to create each question type.

<u>Note</u>: You can define answer feedback also in the **Question pools** section in the **Tests** module. However, the option must be enabled in the test settings for feedback to be displayed.

- 1. Enter the feedback text. This text will be displayed to candidates during the test-taking process only if they choose this answer.
- 2. Click the **Save** button to add feedback for this answer.

**<u>Note</u>**: You can define feedback for each or selected answers to a particular question.

Finish creating the question by clicking the **Add to test** button. You can edit or delete feedback by clicking the **Delete answer feedback**.

You can add as many questions as you want, choose additional test settings, complete the Test Wizard and publish the test.

**<u>Note</u>**: It is possible to add answer feedback for single-choice, multiple-choice, and true/false questions.

# 3 Displaying feedbacks from the candidate's perspective

In questions that contain answer feedback, when the candidate selects the desired answer(s) and clicks the **Next** or **Finish test** buttons, the feedback will appear.

An example is shown in the picture below.

vious question	Demo test		Next question	Finish test
Question: 2/	3	Type: True/False		Progress bar
The dimensions of the planets are de	picted accurately in the image.
