### **1** Introduction

This document explains how to achieve the following requirement:

• Ability to have a final submission button at the end of the test. (ensures the candidate has completed all testing requirements and alleviates the chance of a candidate not getting credit due to lack for a test section (if a multiple section exam).

### 2 Candidate's perspective

When the candidate takes the test with sections, they will have two buttons available:

- 1. Finish section.
- 2. Finish test.

By clicking on either of these two buttons, the candidate will receive a confirmation dialogue with information on unanswered questions. If the candidate clicks on the **Finish section** button, the following dialog will appear:

Main Demo Test > Astronomy - Basic Knowledge	Next question Remaining time for current section
