1 Introduction

This document's purpose is to explain how to create branching questions. The branching option allows you to define the next question for each original question.

2 Adding Questions to a Question Pool

1. To add questions into a question pool, navigate to "Tests/Question pools."

2. To add questions into a new question pool, click the "New" button.

| | My assignments Users • Tests • Surveys • Training courses Reporting • System • | 🖾 i 🖓 i 🕼 i |
|--|--|-------------|
| New Import from JSON My pools All pools Pools (77, 648) 002 tags (0, 8) 01 tagovi abc (0, 8) 03 tags (0, 8) | Organize and store questions in pools. Question pools can be hierarchically organized. You can use question pools to create randomly generated test versions. <i>Play video</i> On this page you can do the following: Select a question pool from the navigation tree on the left or create a new one Define user roles in question pools. You can choose between the "Read-only" and "Modify" role. The | ? |
| Code (1, 5) Code (1, 6) Code (2, 2) <licode (2,="" 2)<="" li=""> Code (2, 2) C</licode> | "Read-only" role allows users to use questions in tests. The "Modify" role allows users to manage the question pool and its questions. Create new questions or bulk load them from an Excel file to the question pool. View, modify or delete the existing questions. Copy or move them to another question pool. | |

3. Add a pool name and save it in the popup window.

| New pool | | | × |
|--------------|------|-------|---|
| Name:* | | | |
| Description: | | | |
| External ID: | | | |
| | Save | ancel | |
