1 Introduction

This document's purpose is to explain the ability to pull metrics on all terminal learning objectives.

2 Metrics on all terminal learning objectives

To check metrics on all terminal learning objectives, do the following:

1. Hover to the “Tests” tab in the main menu.
2. Select the “Manage Tests” tab.
3. Select the desired test.

The screenshot shows the Youtestme interface. At the top, there is a navigation bar with tabs for 'My assignments', 'Users', 'Tests', 'Surveys', 'Training courses', 'Reporting', and 'System'. The 'Tests' tab is selected and highlighted with a red box and the number 1. A dropdown menu is open under 'Tests', showing options like 'New test', 'Manage tests', 'Manage certificates', 'Question pools', 'Grading scales', and 'Testing locations'. The 'Manage tests' option is highlighted with a red box and the number 2. Below the navigation bar, there is a table of tests. The table has columns for 'Name', 'Creation date', 'Status', and 'ID'. The 'Demo Topic Area Test' row is highlighted with a red box and the number 3. The table also includes columns for 'Report displayed' and 'Report content'.

- Select the "Report Builder" tab
- Select username and all of the fields related to question pools.

Note: Question pools are used to group questions by subject areas. You can import questions in test or testing sections from as many question pools as necessary.

After checking the desired options, click on the "Display report" button:

We will be able to see how each candidate performed on each question pool (subject areas). From this particular example, we can see the results from the Post-Test survey and Dimensions of the planes question pools.
