1 Introduction

This article explains how to confirm if the following requirement is well implemented:

• Improving the caption on the Import from Excel button.

2 Accessing the Question pool page

To access the Question pool page, hover over the **"Tests"** section in the main menu, then select **"Question pools**".

3 Question pools import

To import question pools, follow the steps below:

- 1. In the side menu, click the "**Import from Excel**" button.
- 2. Click the "Select file" button to choose the file you want to import.

<u>Note</u>: You can use these samples to confirm that you will get the appropriate messages when importing different files:

- <u>Sample 1</u> Inaccuracy is that the zip file contains two folders one with an image and one with an Excel file.
- <u>Sample 2</u> Inaccuracy is that the zip file contains only a folder with an image, but not an Excel file with questions.
- <u>Sample 3</u> Correct zip file that contains one Excel file and one folder with an image.
- 3. Once you select the desired file, click the "**Upload**" button.

4 Confirmation that the requirement is met

Check if error notification appears for the .zip file that contains:

- File with two folders one with an image and one with an Excel file.
- Only a folder with an image, but not an Excel file with questions.
