## 1 Introduction

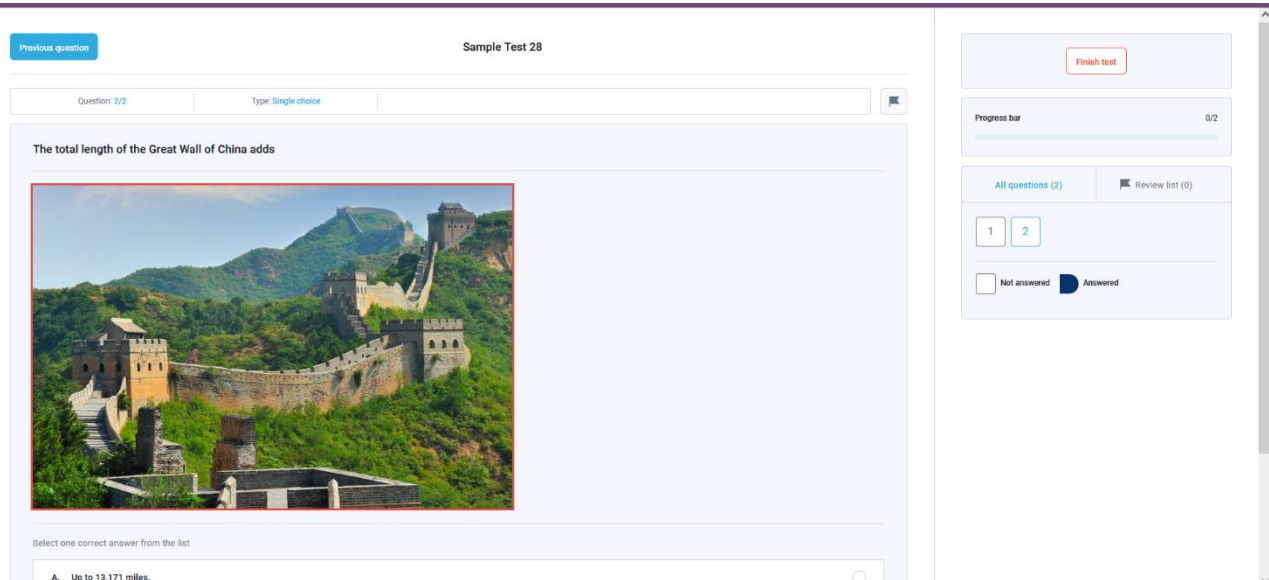

This article explains how candidates can zoom in or out images during the test-taking process.

### Important notes:

- Only pictures in the test question can be zoomed in and out, not the ones in the answers.
- Only pictures in the test-taking can be zoomed in and out, but not pictures in the test wizard.

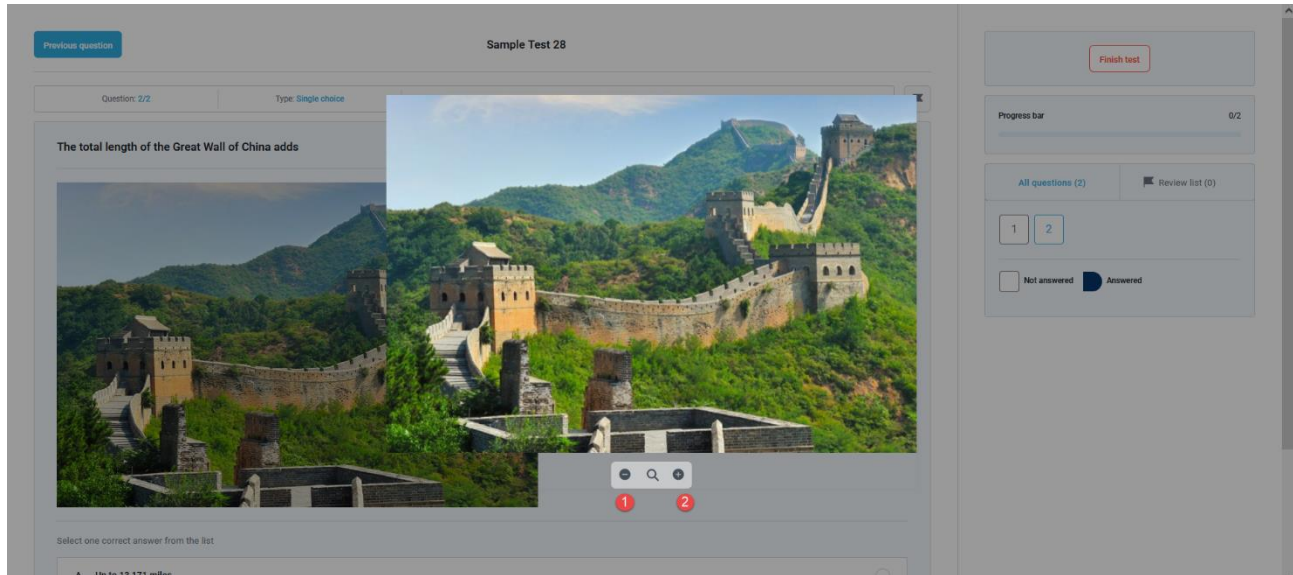

## 2 Candidate’s perspective

Once the candidates enter the test, they can click on the image in the test question.

After the image opens, the Candidate can:

1. Zoom in the picture to the desired size
2. Zoom out the picture to the desired size

To close the picture preview, candidates should click on any screen part next to the picture.
