## 1 Introduction

This article explains how to confirm if the following requirement is well implemented:

- The "Waiting for report" message needs to appear at the appropriate time.

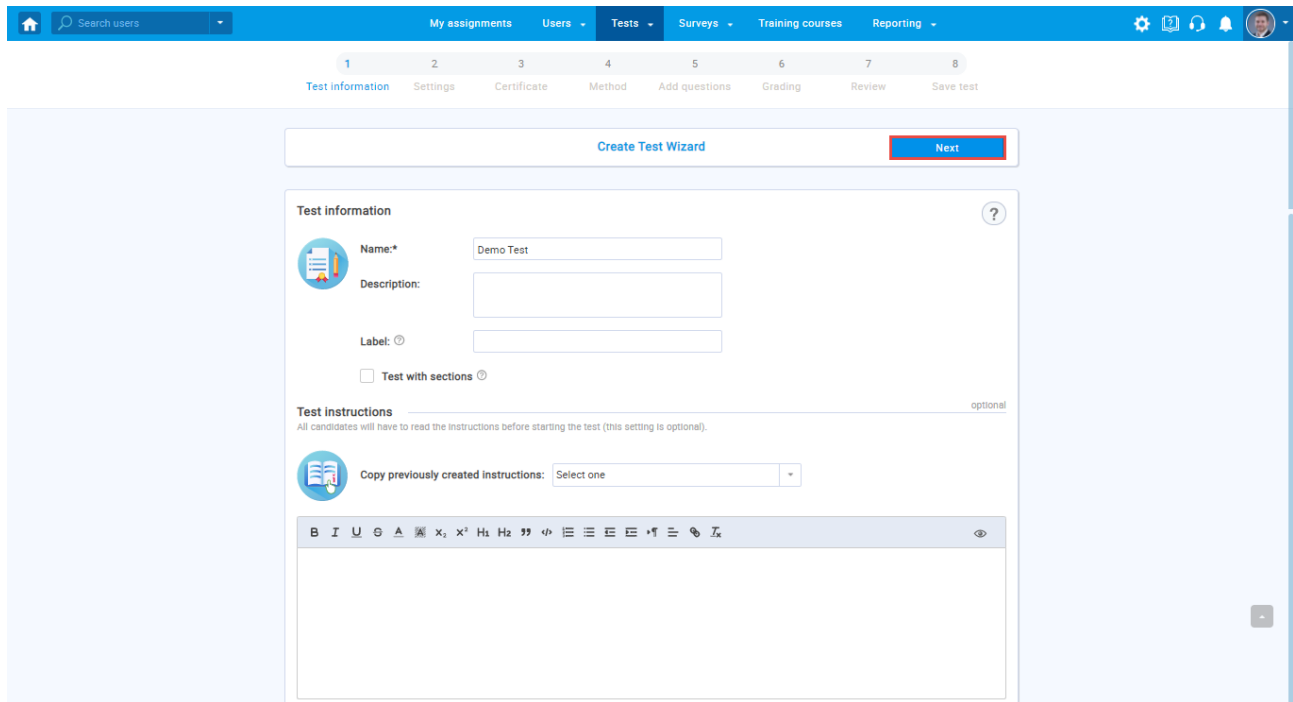

## 2 Creating a test

Hover over the "Tests" tab in the main menu and select "New test".

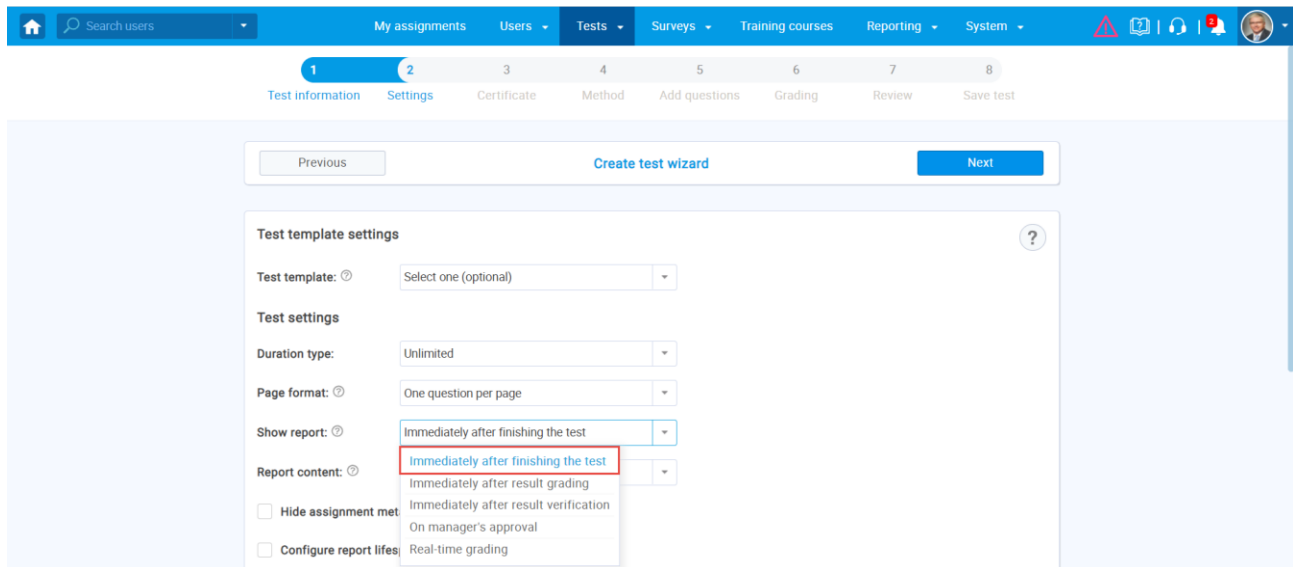

The "Waiting for report" message needs to appear at the appropriate time

Enter the basic test information in the first step of the test creation process, then click the **"Next"** button.

For the **"Show report"** option, choose **"Immediately after finishing the test"**.

Configure the rest of the test settings, complete all steps of the Test Creation Wizard and publish the test.

Repeat the steps above to create one more test, but for the **"Show report"** option, choose **"Immediately after grading"** and add some questions that require manual grading (for example, some essay questions).

### 3 Confirmation that the requirement is met

Once the candidate finishes the first exam, check if the result is immediately displayed. The candidate will receive a report immediately after the test. The score will be based on points from questions that do not require manual grading.

The screenshot shows the 'My assignments' page. On the left, a 'Personal report' for Christina Hall (christina.hall) is displayed, enclosed in a red box. The report includes the following details:

- Test name: Demo test
- Label:
- Started: Feb-23-2022 11:51 AM UTC
- Finished: Feb-23-2022 11:51 AM UTC
- Time spent: 00:00:26
- Passing score: 50.0%
- Score: 11.76%
- Result: Failed (indicated by a red button)
- Verification date: Not verified

On the right, the 'Question pools' section shows a table with the following data:

Question pool	Passing mark	Score	Status
Astronomy	50%	11.76% (2/17 points) 1 correct, 2 incorrect, 0 skipped questions	Failed

Below the table, the 'Questions' section shows a question: 'The groupings of stars that form a shape (such as Crux and Ursa Major) are called:' followed by an image of a starry night sky.

However, if the instructor subsequently grades some of the questions, the candidate will be notified by the application about new test results.

The screenshot shows the 'My assignments' page with a notification overlay. The notification, enclosed in a red box, reads: 'Feb-23-2022 12:25 PM GMT Personal report: "Demo test" results are available'. Below the notification, there is a 'Clear all' button. The background shows the 'My assignments' section with a 'Play video' link.

Additionally, the result will not be displayed immediately once the candidate finishes the second exam. The candidate will get the message that the report will be visible once the manager reviews it.

You have completed the test, but the report is not available yet. The manager needs to review it.
